ARISAKA PFE BOOK

PR-01: SEO OPTIMIZATION PLATFORM

2

Bachelor's or Engineering degree

4 months

An SEO optimization platform that helps users analyze and improve their search performance through automated workflows, curated checklists, and built-in diagnostic tools. It provides a simple, structured way to identify issues and apply improvements.

Technologies: next.js - Django

PR-02: AI-POWERED HRMS "DALANDA"

- 👤 **2**
- 🎓 **Engineering degree**
- 🕐 **4-6 months**

Dalanda is an AI-powered HR management solution that works as a conversational assistant for CEOs and HR teams. It allows users to interact naturally with their HR data through text or voice. The system understands context, interprets requests, and helps manage common HR tasks. Its goal is to simplify everyday HR operations in a more intuitive way.

Technologies: Angular - Django
