Duality
agency

Two forces, One goal

PFE BOOK

Table of content

About us :

Duality Agency is a creative digital agency launched in January 2025 specializing in web development, digital marketing, SEO, WordPress, graphic design, and data analysis , with a touch of fun along the way.

We build fast, modern websites, craft smart marketing strategies, and design strong visual identities that deliver real results.

Serious about performance, creative by nature, and never boring.

Quality agency

They put their trust in our team..

We have for you 3 Projects

Duality agency

Project 1 : Client & Internal Dashboard Development – Duality Agency

- **Description :** Development of a client-facing dashboard and an internal team dashboard for Duality Agency, aimed at improving project management, communication, and overall workflow efficiency.
- **Technologies Used:**

Frontend: React.js, Next.js, TypeScript

Backend: Nest.js

Database: PostgreSQL

- **Project Type:** Internal & client-oriented web application

Project 2 : SaaS for Invoicing : Multi-Dashboard Platform

- **Description:** Development of a SaaS invoicing platform featuring three dashboards to manage clients, invoices, and analytics. The project is external, designed to provide a seamless and efficient invoicing experience for end users.
- **Technologies Used:**

Frontend: React.js, Next.js, TypeScript
Backend: Nest.js
Database: PostgreSQL

- **Project Type:** External client project

Quality
agency

Project 3 : Stock Management System

- **Description:** Development of an external stock management system to optimize inventory tracking, control, and reporting. The platform is designed to improve operational efficiency and provide real-time insights for clients.
- **Technologies Used:**

Frontend: React.js, Next.js, TypeScript

Backend: Nest.js

Database: PostgreSQL

- **Project Type:** External client project

Marketing
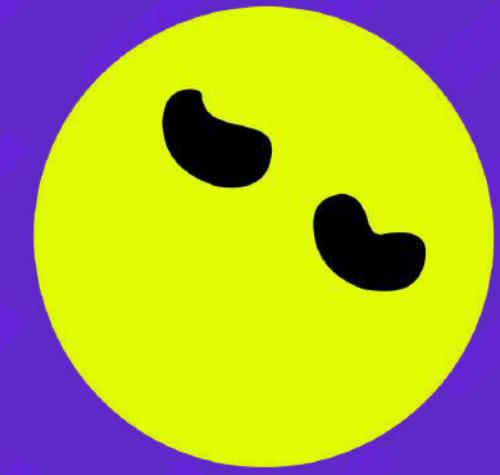

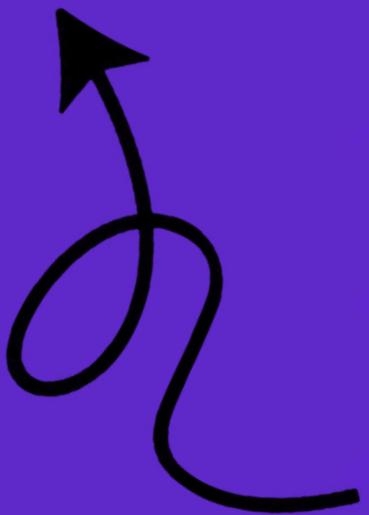

The Creative & Social Media Enthusiasts

Quality
agency

Marketing: Creative & Strategic Minds

We are looking for interns who are passionate about **marketing strategies, content creation**, and **generating innovative ideas**. Our team works with clients from different fields to grow their social media presence and boost engagement. Interns will get the chance to work with tools like Canva, contribute to real projects, and turn creative ideas into impactful campaigns.

Graphic Design: Creative Visual Minds

We are looking for interns skilled in **Photoshop and Illustrator** who are passionate about visual **storytelling and creative design**. Our team works on real projects, including **social media content, branding, and digital campaigns**, providing an opportunity to turn ideas into visually engaging designs. **Creativity, attention to detail,** and a **strong sense of aesthetics** are key to thriving in this role.
