

PFE BOOK 2026

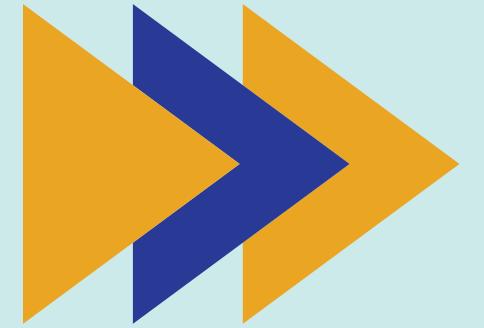

WHO ARE WE

Founded in 2014, our company has built strong expertise in wholesale distribution and logistics, serving a wide network of partners across the supply chain.

Over the years, we have gained in-depth operational knowledge of inventory management, transportation, and storage, enabling us to understand the real challenges faced by wholesalers and suppliers. Today, driven by market evolution and digital transformation, we are expanding into technology by developing an innovative digital platform that modernizes wholesale operations, optimizes logistics processes, and enhances efficiency, transparency, and scalability across the value chain.

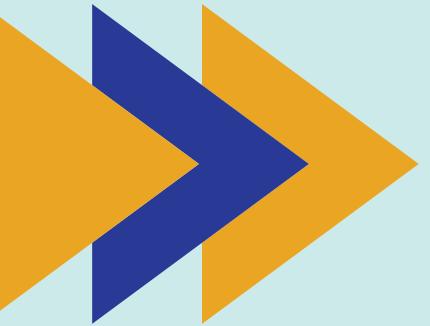

PROJECTS

- Project n°1: **UI/UX Design** – Ref: **UX001**
- Project n°2: **Mobile Development** – Ref: **DV002**
- Project n°3: **Conversational AI Agent** – Ref: **AI003**
- Project n°4: **Web Development** – Ref: **DV004**
- Project n°5: **DevOps & Cloud Infrastructure** – Ref: **DC005**

Project Description:

Design an intuitive, efficient, and professional user experience for a B2B mobile application that allows retailers to browse products, place orders, and manage their purchases easily.

Objectives:

- Intuitive and professional user experience
- Reduced ordering time
- UX adapted to B2B usage

Intern Responsibilities:

- User Research & Analysis
- UX Design
- UI Design
- Validation and Handoff

Technologies:

- Figma
- FigJam
- Design Systems
- Interactive Prototyping

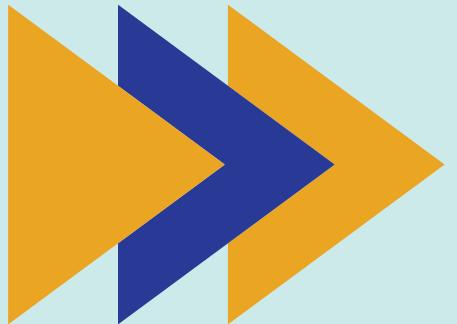

Duration:

from 4 to 6 months

PROJECT N°2: DEVELOPMENT OF A CROSS-PLATFORM MOBILE APPLICATION FOR WHOLESALING

REF: DV002

Project Description :

Develop a high-performance Flutter mobile application enabling customers to browse products, place orders, and interact with intelligent features.

Objectives :

- Stable and scalable mobile application
- Smooth cross-platform experience
- Clean backend integration

Intern Responsibilities :

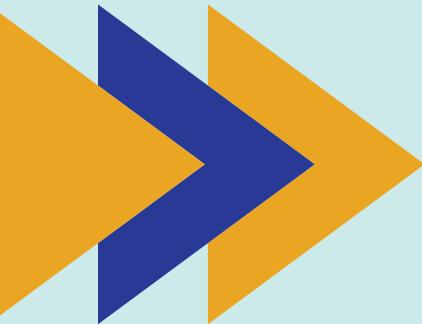

- Project Setup & Architecture
- Feature Development
- API Integration
- Optimization & Testing

Duration :

from 4 to 6 months

Technologies :

- Flutter
- Dart
- REST APIs
- GitLab

Project Description:

Design and integrate an AI-powered conversational agent that allows customers to place orders, check prices and availability, and interact naturally with the platform.

Objectives:

- Automate customer interactions
- Reduce ordering friction
- Deliver an innovative B2B experience

Intern Responsibilities:

- AI System Design
- Implementation
- RAG & Business Logic
- Evaluation & Optimization

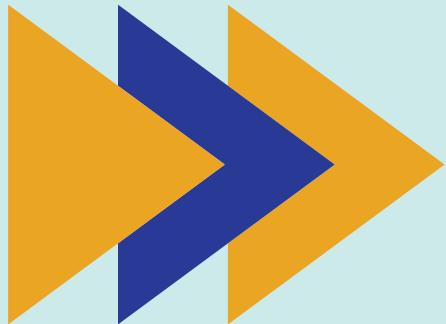

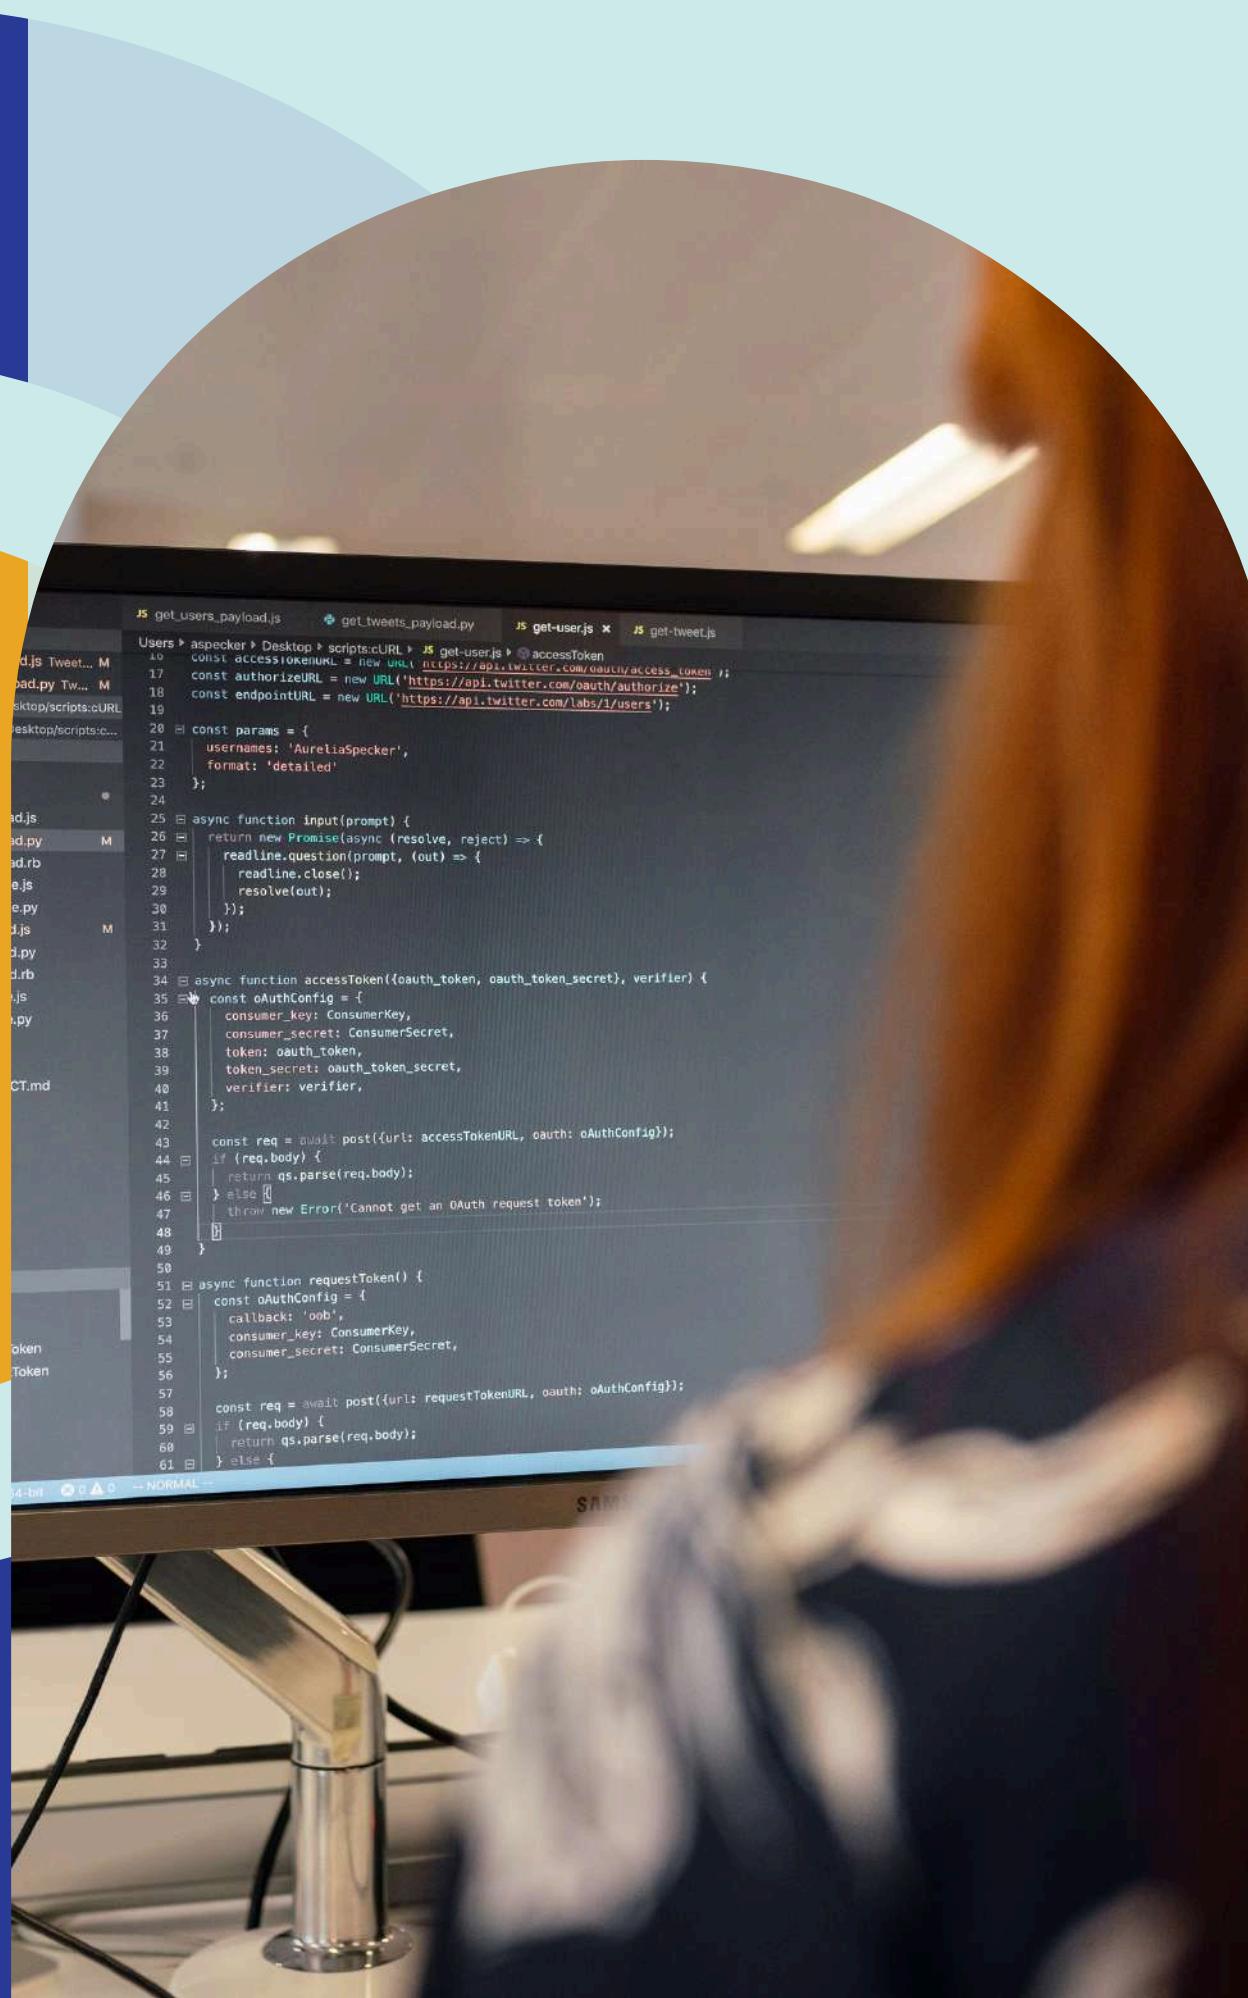

Duration:

from 4 to 6 months

Technologies:

- OpenAI / LLaMA / Mistral
- LangChain / LlamaIndex
- RAG pipelines
- Backend APIs

Project Description :

Build a web-based admin platform to manage products, orders, users, and business analytics for a wholesaling startup.

Objectives :

- Scalable and maintainable architecture
- Clean admin dashboard
- Well-documented APIs

Technologies :

- NestJS
- MySQL
- Prisma (plus)
- Swagger (plus)
- React.js
- React Query (plus)
- GitLab

Intern Responsibilities :

- Backend Development
- Database
- API Documentation
- Frontend Development
- Version Control

Duration :

from 4 to 6 months

Project Description:

The DevOps Intern will be responsible for designing, implementing, and maintaining the deployment infrastructure of a B2B wholesaling platform composed of a mobile application, a web-based admin dashboard, backend APIs, and AI services.

Objectives:

- Automated and reliable deployment workflows
- Scalable and maintainable infrastructure
- Reduced downtime and deployment risks

Intern Responsibilities:

- Environment Setup
- Containerization & Deployment
- CI/CD Automation
- Cloud Infrastructure
- Monitoring & Security

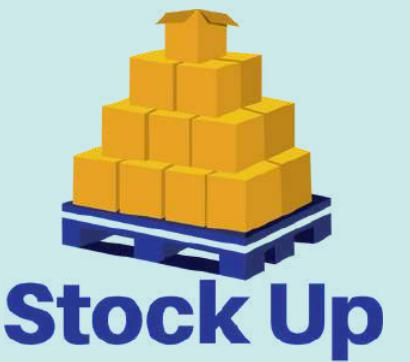

Technologies:

- Docker
- GitLab CI/CD
- Nginx
- Linux
- Cloud Platforms (AWS / Azure / GCP)
- Monitoring & Logging tools (basic)

Duration:

from 4 to 6 months
