

The easiest way to streamline your business

PFE BOOK

2026

About Us

SupplyzPro is an intelligent, WhatsApp powered ERP solution that enables SMEs to automate purchasing, invoicing, and daily operations, while gaining real-time visibility and improving productivity across their business.

The screenshot displays the SupplyzPro ERP system interface. The top navigation bar includes the SupplyzPro logo, a search bar, and links for 'Sales tracking', 'Profile', and a user icon. The main content area is divided into several sections:

- Inventory Valuation:** Shows 37 600.000 TND.
- Gross Margin:** Shows 2 491.500 TND.
- Top Sellers:** A bar chart showing sales volume by quantity for various items, with Coussin... at the top.
- Financial Transactions:** A line chart showing activity from 2025-Jan to 2025-Dec, with categories: Invoiced (blue), Payments (teal), Purchases (pink), and Invoiceable (yellow).

The left sidebar contains a navigation menu with the following items:

- Home
- Inventory
- Item
- Set categories
- Stock corrections
- Warehouses
- Transfer order
- Production
- Sales
- Purchases
- Documents

At the bottom, there are links for 'AI Chatbot', 'Report a bug', and 'Settings', along with a WhatsApp icon with a red notification badge.

The ERP system that you can speak to

Run your business directly from WhatsApp

Fullstack Developer

(Node.js • NestJS • MongoDB • React)

Paid Internship

Mission

You will help design and implement the next-generation ERP modules powering SupplyzPro, with a strong focus on building scalable backend services, intuitive user interfaces, and seamless API integrations.

Your work will enable SMEs to automate daily operations, gain real-time visibility, and interact with the entire ERP through a WhatsApp-based conversational layer.

Primary Responsibilities

- Develop backend services using Node.js and NestJS.
- Build and maintain REST APIs with a focus on performance and security.
- Design efficient MongoDB schemas optimized for high-volume operations.
- Implement responsive and intuitive React interfaces.
- Integrate frontend and backend layers for a seamless user experience.
- Connect system logic with the WhatsApp-based conversational agent.
- Contribute to CI/CD pipelines, deployment workflows, and automated testing.
- Work with versioning strategies (Git), proper branching, and documentation.
- Contribute to a monorepo setup and shared libraries when needed.
- Debug, test, and optimize features across the entire stack.
- Document architecture, design decisions, and development patterns.

Fullstack Developer

(Node.js • NestJS • MongoDB • React)

Paid Internship

Required Qualifications

- Strong knowledge of Node.js, NestJS, React, TypeScript.
- Good understanding of MongoDB and NoSQL data modeling.
- Experience building and consuming APIs.
- Knowledge of authentication, authorization, and web security.
- Solid understanding of DevOps and CI/CD, including deployments, pipelines, versioning, unit testing, and monorepo structures.
- Ability to work independently and solve complex problems.

What you'll get

- Collaborate with a motivated team working toward a clear, impactful product vision.
- Freedom to explore, prototype, and introduce new technical approaches.
- Accelerated growth across backend, frontend, and full-stack architecture.
- Hands-on experience building real features adopted by SMEs in multiple industries.
- A startup culture that values initiative, ownership, and creative problem-solving.
- The opportunity to help shape a fast-evolving product redefining business operations.

AI Engineer

AI Agent Development

Paid Internship

Mission

You will help design, develop, and optimize AI-powered agents that enhance SupplyzPro's ERP platform. Your work will focus on enabling SMEs to interact with the ERP through WhatsApp, automating routine tasks, and providing intelligent insights in real time.

Primary Responsibilities

- Develop and train AI agents that understand and respond to client queries.
- Integrate AI modules with backend services and the WhatsApp conversational layer.
- Build automations using AI tools to streamline business operations.
- Ensure seamless collaboration between AI logic and fullstack components.
- Test and optimize AI responses for accuracy, speed, and user experience.
- Document AI flows, prompts, logic trees, and model behaviors.
- Continuously explore new AI tools, libraries, and optimization techniques.
- Contribute to CI/CD pipelines, automated deployments, and testing of AI modules.
- Work with proper versioning practices (branching, reviews, model versioning).
- Collaborate in maintaining a monorepo ensuring consistency across AI and backend code.

AI Engineer

AI Agent Development

Paid Internship

Required Qualifications

- Knowledge of backend development using Node.js, NestJS, Python.
- Experience with AI/ML, NLP, and conversational agents.
- Familiarity with AI tools, embeddings, vector stores, and automation platforms.
- Understanding of ERP workflows and system integrations.
- Strong understanding of DevOps concepts (CI/CD, deployments, versioning, monorepo).
- Creative and curious mindset for building smart AI solutions.

What you'll get

- Hands on experience developing AI solutions used by real businesses.
- Opportunity to work with Python, backend systems, and AI/automation tools.
- Mentorship from experienced developers and AI engineers.
- Exposure to cutting edge AI integrations within a fast growing startup.
- A dynamic environment where your experiments and ideas directly impact the product.

Technical Sales Associate

Sales Operations & Client Engagement

Paid Internship

Mission

You will drive the commercial expansion of SupplyzPro by building strong relationships with prospects, communicating the value of our ERP solutions, and contributing to a structured sales strategy. Your role focuses on direct client interaction, lead qualification, and helping establish a reliable and scalable sales pipeline.

You will represent SupplyzPro with confidence, handle conversations with professionalism, and support the company's growth in the accounting and SME market.

Primary Responsibilities

- Contact, follow up, and qualify leads through calls and messages.
- Communicate clearly, confidently, and persuasively to present SupplyzPro's value.
- Conduct needs analysis to understand client challenges and propose relevant solutions.
- Build trust with prospects and maintain professional relationships.
- Help structure the sales funnel by organizing leads, feedback, and conversion stages.
- Support the preparation of presentations, demos, and commercial proposals.
- Participate in the development of sales strategies and outreach campaigns.
- Handle objections with a strong, composed personality while maintaining a positive tone.
- Coordinate with internal teams to ensure client expectations are aligned with product capabilities.

Technical Sales Associate

Sales Operations & Client Engagement

Paid Internship

Required Qualifications

- Strong verbal communication and negotiation skills in English, French and Arabic.
- Confident, resilient personality with the ability to lead conversations.
- Comfortable calling leads, presenting solutions, and explaining product benefits.
- Organized and proactive in managing follow ups and client interactions.
- Ability to think strategically and contribute ideas for improving sales processes.
- Basic understanding of CRM tools and sales funnels is a plus.
- Passion for helping businesses improve operations through digital tools.

What you'll get

- Direct experience in client acquisition and B2B communication.
- Opportunity to represent a fast-growing ERP solution in the SME market.
- Freedom to experiment with messaging, outreach techniques, and sales approaches.
- A dynamic startup environment that values initiative and strong character.
- Exposure to real sales cycles and close interaction with decision-makers.
- Chance to grow into a key commercial role as SupplyzPro expands.
- Freedom to test your ideas, shape outreach strategies, and directly influence company growth.
